Information from the Aviation Security Authority:

The Gemeinsame Obere Luftfahrtbehörde Berlin-Brandenburg, Mittelstr. 5/5a, 12529 Schönefeld, is the competent aviation security authority in the federal states of Berlin and Brandenburg. The information provided in the application form is required for the purpose of conducting the background security check according to § 7 Para. 1 No. 4 of the National Aviation Security Act (LuftSiG). This background check serves to protect against attacks on the security of civil air traffic.

According to § 16 of the Aviation Personnel Regulation (Verordnung über Luftfahrtpersonal, LuftPersV) and § 1 para. 2 No. 4 of the Aviation Security Verification Regulation (Luftsicherheits-Zuverlässigkeitsüberprüfungsverordnung, LuftSiZÜV), **the training for the acquisition of a license including the theoretical training may not commence until the background security check has been completed with a positive result.** According to § 4 para. 3 of the National Civil Aviation Act (Luftverkehrsgesetz, LuftVG) the license must be revoked if there are doubts arising from the background security check as defined in § 7 LuftSiG.

Initial applications for background security checks of airmen and student pilots residing in Berlin or Brandenburg must be submitted to the Gemeinsame Obere Luftfahrtbehörde Berlin-Brandenburg **at least 8 weeks prior to the requirements** specified in the LuftPersV. In the case of student pilots, confirmation from the flight training organisation of the intended training is mandatory. The review period is regularly 4 to 6 weeks. For persons who have already been checked, **the application for a repeated check should be submitted at the latest 3 months before the expiry** of the period of validity of the previous background security check, as these results remain valid until the completion of the repeated check in accordance with § 5 para. 2 LuftSiZÜV.

In accordance with § 7 para. 3 No. 1 LuftSiG, the background security check includes verification of the identity of the person concerned as well as regular inquiries at the institutions listed in § 7 para. 3 No. 2 - 5 LuftSiG.

If significant findings in accordance with § 7 para. 1a LuftSiG are obtained during the background security check, the relevant documents from the public prosecutor's office or court decisions may be requested. If there are further findings, third-party authorities (e.g. the Foreign Affairs Offices) may be requested to provide information. If there is any doubt as to the applicant's trustworthiness, the applicant will be given the opportunity to make a statement, either in writing or in the course of a security interview. Pursuant to § 7 para. 3 LuftSiG, the applicant is obliged to cooperate during the background security check. The aviation security authority may also request further information from the applicant himself or the submission of further documents, e.g. transcripts from foreign criminal records, as part of the check. Failure to comply with the obligation to cooperate regularly leads to doubts regarding the trustworthiness of the applicant. If the result of the background security check is positive, the applicant receives a corresponding certificate by mail. For the duration of the validity of the verification, the applicant is subject to the follow-up reporting obligation of the authorities involved. In addition, the applicant is obliged to notify the competent aviation security authority within one month of a change of name and place of residence (if in another federal state or country) in accordance with § 7 para. 9a LuftSiG. If the applicant's result of the background security check is negative, the relevant reasons will be communicated by means of a written decision with instructions on how to appeal.

The process of a background security check is subject to a fee according to § 1 of the Aviation Security Charges Regulation (Luftsicherheitsgebührenverordnung, LuftSiGebV). The applicant is liable for the costs.

Should the applicant wish to use the certificate of the background security check for an employment in the future, this will change the affiliation to a group of persons within the meaning of § 7 para. 1 sentence 1 LuftSiG. For this purpose, a complete list of all employments, training and further education, unemployment, as well as any gaps of more than 28 days during the last 5 years must be submitted in chronological order (to the day) to the competent aviation security authority before taking up the planned activity. In this case, appropriate supporting documents must also be submitted. These include in particular (but are not limited to) copies of employment contracts, references, diplomas, social security certificates or business registrations. This corresponds to the implementation of EU Regulation No. 2015/1998. Applicants are only exempted from this requirement as long as they belong exclusively to the group of persons of airmen or student pilots pursuant to § 7 para. 1 sentence 1 no. 4 LuftSiG and if they use the certificate of the background security check only for this purpose.
